### Description:

- Rent A Coder reminder: You MAY NOT post the final solution for this (and any) project before your bid is accepted and funds are fully escrowed. Anyone who does may have their account permanently suspended. However, you CAN post:
  - On programming projects: A prototype or functional demo...as long as source code is not provided.
  - On graphics projects: A watermarked and low-resolution version of the work.
- RAC Writing Addendums:
  - All English writing-related deliverables MUST be of grammatical, structural and logical quality commensurate with written English in a professional journal (unless otherwise stated by the Buyer). If you are a non-native English speaker you are HIGHLY CAUTIONED against bidding if you are less than 100% certain that you can provide this level of deliverables.
  - However, if the Buyer accepts your bid based on a sample of your work that falls beneath (or above) this level, then they are indicating that quality of your sample is the acceptable level of quality in this contract.
- In general, all deliverables MUST be completely your own original work and may not be taken (in whole or in part) from any work that you do not have full copyrights to (unless otherwise stated by the Buyer).
  - If the buyer agrees to allow you to quote material from other sources, you must surround that material with quotes and cite the source with enough detail so it can be verified.
  - The buyer may agree to allow you to paraphrase material from other sources. This is legal when the work is considered "Fair Use" (which generally means it will NOT be used commercially and ONLY for educational purposes). When this is the case, you must follow generally accepted standards for paraphrasing. Merely rearranging words and phrases from another source is considered plagiarism and is illegal. To correctly paraphrase, you should read the original and then close the book/source so you cannot see it and then write the entire material from scratch using your own words. On the other hand, if you may know or suspect the work may not be "Fair Use", please inform or consult with Rent a Coder.
- If you infringe any copyright you will forfeit all escrowed funds under the terms of ""fraud"" in your contract and may have your account suspended. DO NOT BID ON THIS PROJECT, unless you fully understand United States copyright law and it's ramifications to you.

We need some Java code to calculate the correlation between two stocks. Your work for this project includes the research to define what "correlation" means, as well as the code itself. To

obtain the price history, you must use the attached APIs.

In your research, you must quote the definition from reputable sources.

 **Platform:**  
Java.

 **Deliverables:**

- 1) Complete and fully-functional working program(s) in executable form as well as complete source code of all work done.
  - 2) Deliverables must be in ready-to-run condition, as follows (depending on the nature of the deliverables):
    - a) For web sites or other server-side deliverables intended to only ever exist in one place in the Buyer's environment--Deliverables must be installed by the Seller in ready-to-run condition in the Buyer's environment.
    - b) For all others including desktop software or software the buyer intends to distribute: A software installation package that will install the software in ready-to-run condition on the platform(s) specified in this bid request.
  - 3) All deliverables will be considered "work made for hire" under U.S. Copyright law. Buyer will receive exclusive and complete copyrights to all work purchased. (No GPL, GNU, 3rd party components, etc. unless all copyright ramifications are explained AND AGREED TO by the buyer on the site per the coder's Seller Legal Agreement).
- All deliverables must be [uploaded to Rent A Coder](#) before the deadline(s) for this project...with no exceptions. If this contract makes it impossible for a competent person to do this, then [do not start this project](#)...but instead alert Rent A Coder of an [un-arbitratable, illegal](#) project.
  - Remember that contacting the other party outside of the site (by email, phone, etc.) on all business projects < \$500 (before the buyer's money is escrowed) is a [violation](#) of both the software [buyer](#) and [seller](#) agreements. Rent A Coder monitors all site activity for such violations and can instantly expel transgressors on the spot, so we thank you in advance for your cooperation. If you notice a violation please [help out the site and report it](#). Thanks for your help.

 **Categories:**

(Note: Like everything else on this page, these categories are part of the original contract for this bid request.)

Last posting was posted on 6/16/2007 10:42:07 AM by you :

- I hereby certify and legally confirm that wfredyszy has completed 20% of this project to my complete and total satisfaction. I "Accept 20% of the work as complete" (per the [Rent a Coder Custom Software Buyer Agreement](#)) and authorize Rent A Coder to release payment to the coder in the amount of \$32.00 USD.
- I further GUARANTEE that the coder has sent me all deliverables (onsite) that correspond to the aforementioned portion of the project, and that they have been fully and vigorously reviewed and tested to my complete satisfaction.
- I further GUARANTEE that this is not an [advanced payment](#). I understand and agree that if it is, then not only may I lose all of my funds in exchange for nothing, but that this is a violation of my Buyer's agreement and I may be ejected permanently from the site.
- I understand and legally agree that under NO CIRCUMSTANCES will I EVER be able to get these funds back. I formally and irrevocably release ALL claim to said funds, from this point in time (6/16/2007 10:42:07 AM EDT), onwards.

## Escrow Log

[\(Back to shortcuts\)](#)

Below are the funds that have been deposited into escrow by the buyer on this project. Additionally, any escrowed [Expert Guarantee](#) is also shown.

What Was Escrowed?	Escrow Id	Date	Amount	Timecard (if any) / Escrow Status	Preferred Payment Discount?
 Funds for seller	304299	4/7/2007 12:15:46 AM	\$40.00		No
 Funds for seller	310065	4/23/2007 10:48:16 AM	-\$40.00		No
 Funds for seller	310068	4/23/2007 10:50:36 AM	\$160.00		No

## Work acceptance

[\(Back to shortcuts\)](#)

### Work Acceptance Log

Date	Percent Accepted	Released from Escrow
May 16, 2007 10:38:30 AM <a href="#">EDT</a>	80%	\$128.00
Jun 16, 2007 10:42:07 AM <a href="#">EDT</a>	20%	\$32.00
Total:	100%	\$160.00

100% of work was accepted by buyer. Seller account has been credited and paid.

## Contact info / receipts

[\(Back to shortcuts\)](#)

For your protection, Rent A Coder recommends against communication with the other party outside of the site. Offsite information cannot be taken into account if there is a dispute. However, for emergency situations, or for those who wish to go offsite and then come back and summarize what was said onsite, you can find the other party's email contact information here (once all funds are escrowed).

**Buyer Screen Name:** Megabuyer

**Buyer Email Address:** [rentacoder@zigabyte.com](mailto:rentacoder@zigabyte.com)

**Coder Screen Name:** wfedyszy

**Coder Email Address:** [wojciech.fedyszyn@gmail.com](mailto:wojciech.fedyszyn@gmail.com) [old](#)

To honor your privacy, Rent A Coder releases only your email address to the opposite party. However, you are free to exchange additional contact information such as IM and phone number information (if you wish). Just remember that if there is a dispute, off-site communication is not taken into account in the arbitration process (because it is too easily faked). For your own protection, always follow up off-site communication with an on-site posting of what was agreed upon (and get the other party to confirm your posting on-site). This fully protects you in case of a dispute.

## Mediation / Arbitration

[\(Back to shortcuts\)](#)

If you wish to reduce escrowing, stop work, or have a problem with the other party that you cannot resolve on your own, you can put the bid request into mediation / arbitration to resolve the issue.

 [Click here to get information about \(or initiate\) mediation / arbitration](#)

To ensure that Rent A Coder is a safe and fair place to do business, all mediations / arbitrations are settled in accordance with the rules of arbitration as detailed and pre-agreed to by both parties in the [buyer](#) and [seller](#) legal agreements.

## Status reports

[\(Back to shortcuts\)](#)

The seller IS NOT required to file a status report, because you have waived the [status report requirement](#). (Click here if you wish to [re-instate this](#).)

- [Saturday, May 12, 2007 4:56:56 AM EDT](#)  
another empty file as a weekly report status. I'm waiting for response from you - I've asked if I understand user interface issues.  [\(Click here to download\)](#)
